INFIRMARY COST IS NEAR \$125,000

Estimated Sum Includes Furniture,

CONTRACT PRICE \$86,208

Building Will be Erected by Leslie
Colvin of West Lafayette
For \$74,296

The county commissioners awarded the general constructing contract for the new Rush county infirmary, late yesterday afternoon to Leslie Colvin of West Lafayette, for the amount of \$74,296. The plumbing and heating contracts were awarded to Neal and Stoll of Connersville, their bid for heating being, \$5,035 and plumbing \$5,500. The Hatfield Electric company of Indianapolis were the successful bidders for the wiring, getting the contract for \$13,777.

The county council yesterday increased the appropriation of \$85,000, made a few months ago to construct the infirmary, by \$10,520, bringing the total up to \$95,520.

The commissioners ordered bonds issued in this sum to pay for the improvement. The bonds will be \$597 each and will run for twenty years. They will be exempt from taxation and will bear five percent interest. Eight will fall due each year, four each six months, until they are all redeemed.

It is estimated that by the time the new building is erected, furniture purchased, cement walks, sewer and water connections made, that the cost will be around \$125,000 for the new county home.

The plans and specifications under which the contract was awarded call for a hip, tile roof, two-story building. The bid of M. M. Winship of this city was the lowest but it was for a flat roof.

The various bids received were as follows: general constructing, M. M. Winship, \$73,053; State Construction Company, \$78,887; Leslie Colvin, \$74,296. The heating and plumbing bids were as follows: Hutzl and company, heating, \$5,694; plumbing, \$6,462; Beale Brothers, heating \$5,900, plumbing \$6,545; Neal and Stoll, heating \$5,035, plumbing \$5,500. The electric wiring bids were Sandborn Electric company, \$14,500 and Hatfield Electric company at \$13,777.

The building will be constructed in the form of a cross and the outside measurements will be 130 by 135

FALLS FROM A HAY WAGON ON HIS HEAD

Charles Boys Painfully Hurt When
Trip Rope on Hay Fork Breaks
on John Gartin Farm

UNCONSCIOUS FOR SOME TIME

Charles Boys, 337 West Seventh street, sustained very painful injuries late yesterday afternoon, when he fell from the top of a hay wagon, and alighted on his forehead. Mr. Boys was on the John Gartin farm, north of the city, and was helping mow the hay, when the trip rope on the hay fork gave way, causing him to fall.

The strain caused from the injury to his forehead, caused much pain in his neck, and for a time it was thought that his neck was broken, but Dr. Dean, the attending physician, stated that he was getting along very well, and that no bones were broken. He was unconscious for a time following the accident, and suffered much pain last night.

PLANS MADE FOR SIGNING

Ebert Will Rush Treaty to Clemenceau When it is Ratified

(By United Press.)

Berlin, July 9.—The moment the national assembly ratifies the peace treaty, President Ebert will sign the original document and rush it by courier to Versailles, it was learned today. At the same time he will inform Premier Clemenceau of his action by telegraph.

A German paper today advised the government not to hasten the signing of the peace treaty because it was uncertain whether America and Italy would ratify it.

MAY BE CARS THAT WERE STOLEN HERE

Two Fords Being Driven by Jeffery
Brothers of This City Held at
Watertown, Tenn.

SEWARD RECEIVES TELEGRAM.

John Gartin's Car Stolen June 8
and Hubert Jones' June 21—
Engine Numbers Sent.

Two Ford touring cars are being held at Watertown, Tenn., according to a telegram received here from the sheriff of that place, Luke McMinneway, which also stated that he was holding two Rushville boys, giving their names as Jeffery brothers. The telegram to Chief Seward wanted to know if there was two Fords missing from here, and it is probable that the cars belong to Hubert Jones and John Gartin, of this city.

The Gartin automobile was stolen from in front of the Main Street Christian church a month ago, or on Sunday night, June 8. It was a new car and was still running on the dealer's license; even the tools had not been unpacked from the rear seat. At the time Mr. Gartin offered a reward of \$50, and nothing resulted.

The Jones machine was taken on Saturday afternoon, June 21 from in front of the jail. He parked his machine there about three in the afternoon, and at six, when he went to get it, found it was gone.

No one was suspected of taking the machines and the message from Tennessee came as a surprise. While they are not definitely known to be these two machines, it is regarded as probable that they are. Chief Seward wired the sheriff, giving him the engine numbers, and a reply was expected sometime today.

The boys held are the sons of George Jeffery, living at 1105 West Market, and one son Elmer, eluded the police about a year ago, after being arrested on a charge for bootlegging.

CAMPAIGN TO OPEN IN ABOUT 2 WEEKS

President Wilson's Tour For League
of Nations Will Take Him to
Pacific Coast

COMMITTEE MAY CALL HIM

Senators of Both Parties Ordered to
be in Washington Thursday
When Wilson Speaks

(By United Press.)

Washington, July 9.—President Wilson will start his tour of the United States campaigning for the league of nations in about two weeks, it was announced at the white house today. The trip will include a visit to the Pacific coast where he expects to view the newly formed Pacific fleet, according to present plans.

The president will keep himself continuously in touch with any senate committee which may wish to confer with him and is ready at all times to furnish any information that may be demanded, it was learned.

Opponents of the league of nations have hinted that they might have him appear before the foreign relations committee to explain the peace treaty and to be questioned.

The president arose early this morning and at once made preparations for a busy day's work. He was to confer with Secretary Tamm and with several senators. It was learned that he was preparing to keep in close touch with the foreign relations committee.

The Mexican situation, it is believed, will be one of the first problems called to Wilson's attention. A report will be made by the state department on the recent events in Mexico and on the status of legislation on the country.

The two weeks before starting the nation wide tour will be very busy for the president, it was indicated, as a mass of domestic work is awaiting his attention.

This fortnight will also give him a chance to see what drastic measures the league of nations opponents in the senate will take and give him an opportunity to compose speeches to offset their efforts.

Every member of both parties in the senate today received a telegraphic order from party leaders, to be here Thursday.

With the few senators remaining here, those absent, are arranging so

Runs Amuck With Iron Bar

MRS. KELLEY REPORTED DYING

(By United Press.)

Indianapolis, Ind., July 9.—Thomas Roberts, a negro patient at the Central Indiana Hospital for the Insane, picked up an iron bar in the laundry of that institution, today, and fatally injured Fred Pfister, 56, an attendant, and Mrs. Kelley, 76, laundress, both white. Both skulls were broken.

Pfister lived one-half hour and Mrs. Kelley was reported in a dying condition shortly before noon.

The iron bar with which Roberts delivered the blows was said to have been carelessly left in the laundry by a plumber.

Roberts had been an inmate of the institution since November 20, 1914.

The woman, Mary Kelley is forewoman of the laundry at the hospital.

YOUNG SKY PILOT WILL SPEAK HERE

Howard C. Knottis, Next to Young-
est American Ace, will be at
Chautauqua.

ON FRIDAY AUGUST 15

Program About Completed for As-
sembly Which Will be Held Sec-
ond Week in August.

Howard C. Knottis, next to the youngest American ace, who brought down ten German planes during the war and was a prisoner when the armistice was signed, will speak at the Rush county chautauqua Friday afternoon Aug. 15, at three o'clock according to the program for the annual assembly, which has been practically completed.

The chautauqua will be held a week later than usual this year, beginning on August 10 and continuing up and including August 17. Previously the assembly has always taken place the first full week in August.

Knottis is expected to be one of the most popular attractions on the program for his story is without parallel in the history of American's participation in the war.

Knottis is officially credited with only six planes, but he has the unique distinction no other ace has—that of having been in a German internment camp when hostilities ceased.

His flying chum throughout all their flying experiences, was a Pennsylvania boy, who is the youngest American ace, and he is just two months younger than Knottis. Knottis won oratorical honors during his highschool experience. He was in Harvard Law school when he enlisted in the army. His first year in the law school he was elected president of the debating society and tied for honors at debating. A clever speaker with a tremendous war experience, he will give one of the most interesting lectures to be heard at the chautauqua.

When American unsheathed her sword in April, 1917, and in effect declared that Germany was the arch-enemy of all Christian civilization and therefore must be subdued at whatever cost and hazard, Lieut. Howard C. Knottis was a slim, fairhaired, blue eyed, first year law student at Harvard, just turned twenty-one. He was typically Amer-

BOND SALES HERE TOTAL \$840,950

Victory Liberty Loan Report-
ed by District Chairman

PER CAPITA SALE IS \$43.46

57 Subscriptions by 4 Railroads and
Standard Oil Co. Apportioned
to County Total \$4,400

The actual subscriptions to the Victory Liberty loan in Rush county amounted to \$840,950, an oversubscription of two percent on a quota of \$825,000, according to a detailed statement regarding the campaign received by Earl H. Payne county chairman, from the seventh federal reserve district chairman at Chicago.

The following statistics show how well Rush county responded to the last popular appeal for funds to pay war expenses:

The per capita sale based on the population of the 1910 census, 19,349, amounted to \$43.46, a per capita oversubscription of 82 cents, the per capita quota being \$42.64.

Six per cent of the population figured on the 1910 census, subscribed to the loan.

The average size of subscriptions was \$690.

The total number of subscriptions was 1,219, counting fifty-seven apportioned to Rush county by the Standard Oil company and the four railroads entering Rushville.

Exclusive of the subscriptions apportioned to Rushville by these concerns, the amount was \$836,550 and the number of subscribers was 1,162.

Rush county received credit for \$4,400 from the five corporations mentioned above, as follows: Big Four railroad, four subscriptions, four subscriptions amounting to \$250; the C. I. & W. railroad, fifteen subscriptions amounting to \$850; the L. E. & W. railroad, eight subscriptions amounting to \$600; the Pennsylvania railroad, twenty-nine subscriptions amounting to \$2,000; the Standard Oil company, one subscription for \$700.

None of these bonds was purchased through any of the Rush county banks and for this reason it was necessary to have the federal reserve bank statement before the exact amount of sales could be determined.

The sales and number of subscribers by banks were as follows.

Bank	No. Sub.	Amt.
Arlington bank	67	\$ 40,000

WILL BE TRIED AT SHELBYVILLE

Chester Taylor and Sylvia Miller,
Arrested Yesterday, Will Not be
Returned Here.

CORN STOLEN FROM J. M'KAY

Police Learn That Taylor Has Been
Selling Corn Which Was Probably
Stolen, Locally

Chester Taylor and Sylvia Miller, of this city, who were arrested yesterday morning in Shelbyville, when they appeared at the Richard and Lawson elevator of that place, to sell 1150 pounds of corn, will be tried in the Shelby circuit court, according to Prosecutor Stevens, who held a communication with the Shelby county prosecutor this morning. The two men, when arrested, had in their possession a quart of whiskey, and will also stand trial for having an illegal quantity of liquor in their possession. The corn was found to belong to James McKay, a farmer living in Orange township, but the hog which they sold at Shelbyville several days ago has not been claimed.

Evidence was secured here yesterday by the police to show that Taylor had been selling corn to different Rush county men, and only last week, sold several sacks to a Glenwood man and also to a Rushville man.

The Shelbyville Democrat, commenting on the case said the following in last night's issue:

"When the two men drove up to the elevator this morning, they were recognized by Harold Walton, an employe there, as two of the four men, who two weeks ago stopped the same Essex touring car at the elevator and offered a pig for sale there; it is thought this pig was stolen, although Taylor denies that he was with the four men. Mr. Walton readily bought the corn, which was sacked and in the tonneau of the touring car. He told them, however, that he could not pay them until the arrival of the proprietor and asked them to come back later for the money. This they agreed to do. The police were notified and Officers Thompson and Fiscus were in waiting when the men returned and they were arrested.

As soon as the affidavits had been filed against the men, Prosecutor Tolen, Mayor Hoop and John Thompson made ready to go on a search for the owner of the corn. Taylor agreed to direct them to the place. The empty crib was found one-half mile south of the home of

Harper had little trouble in finding work, and was busy with the street construction gang, shortly after being released.

them from starvation. An American mess was soon started. The five did their own marketing and prepared their meals.

They were allowed a remarkable amount of freedom in Moscow, and could go about the city in daytime. At special times they had to report for lectures on bolshevism and the world revolution given by Russians who had lived abroad and spoke English.

The bolsheviks did their best to convert the Yankees, who kept their peace, and expressed no opinions until they had crossed the border into Finland. The doughboys were supposed to be "ripe" for bolshevism when they left Russia.

yours is mine—that's their creed." "Bolos" is the name the Yankee on the Archangel front gave to the bolsheviks. Leitzell is an intelligent spirited, redheaded American who came by his decisive ideas regarding bolshevism as the result of his first hand experiences.

Private Hogan is serious and deliberate. He speaks little and listens much. His views are equally interesting. "If America ever went bolshevik like Moscow", he said, "I'd make myself a lone hand to stand out against them. If you want to be a good bolshevik, you've got to be crummy and dirty. The majority of people in Russia wouldn't tolerate it, if it weren't for the fact they would starve to death if they opposed the Bolos."

Private Triplett, a rather easy going youth said, "I think the Bolos are just too damn lazy to work. If it weren't for the women they'd never get anything done. They have to dig the trenches at the front."

"You see the women carrying huge loads while some big bum of a bolshevik walks alongside carrying nothing. With the women doing everything, the men have to enlist, or the Bolos won't let them eat."

Private Laursen said, "I figure they're crooked and deceitful and are a bunch of cut-throats. All the honest ones want to get out of Russia as soon as possible. They all want to go to America. Like hell we'll let them in—if I see any I'm Bolos won't let them eat."

This is what the ordinary American doughboy thinks of bolshevism. These chaps had three months to

study it in Moscow, Mecca of the bolsheviks. The "Yanks" didn't bother themselves too much about theories—they saw bolshevism in practice, and these are the opinions they expressed as they lay on the grass in the sun outside the quarantine hospital in Finland, after they had escaped, and were in friends' hands.

DOUGHBOYS GIVEN
BOLSHEVIK TALKS

Bolsheviks Aimed to Convert Americans and Send Them Home Primed For Agitation

WERE STRIPPED OF CLOTHING

Five American Prisoners Were Released in Moscow and Allowed to Leave at Request of U. P.

By FRANK J. TAYLOR
(U. P. Staff Correspondent.)

New York, July 9.—American doughboys who fell into the hands of the bolsheviks as war prisoners were given an unwelcome course of lectures on bolshevism while in Moscow. The bolsheviks aimed to convert the Americans and send them home primed for agitation in America.

The plan failed, judging from the sentiments of five Americans who were released in Moscow and allowed to leave at the request of the United Press.

These men were, Bryant R. Ryall, Y. M. C. A. Secretary, 345 Madison Avenue, New York City, who had been in Russia before doing civilian relief work; Sergeant Glenn W. Leitzell, Mifflingburg, Pennsylvania; Privates Freeman Hogan, 812 Caspar Avenue, Detroit; Jens Laursen, Marlett, Michigan, and John Triplett of Hindman, Kentucky. In addition the party brought out Francis Linford, a wounded English lad from Sussex.

All the "Yanks" were captured on the Archangel front. When the bolsheviks surprised them by a flank movement, the "Yanks" were passed back from post to post until they arrived in Moscow. They were stripped of practically everything, including clothes.

Some of them had almost entirely Russian uniforms. The bolsheviks had a particularly keen eye for American "O. D." equipment, especially shirts. All of the Americans had bolshevik overcoats, their own having been stolen.

In Moscow the Americans were given fairly clean and decent quarters, but were issued practically no food. A Red Cross fund, and later money from the Y. M. C. A., saved

Saving Daylight

There is weeping and gnashing of teeth in the large cities at the repeal of the daylight saving law. But they are not narrow minded about it. They admit that the law has been working a hardship to farmers, and that there is plenty of argument in favor of its repeal. If the farmer sets his clock in contradiction to railroad time, his schedule will get considerably twisted when he is shipping cream and produce to the city consumer.

But the whole trouble is so easily cured that it is difficult to understand why it ever became a vexed question. It is simply a matter of phraseology. We can call any time bedtime, if we want to go to bed.

City folks can have what they want without hurting the farmers, if they prefer to start work on hour closer to sunrise. Make employers get together and arrange that offices shall open and close an hour earlier. Places that open at 8:30 and close at 5:30 can open and 7:30 and close at 4:30. They will not work any harder, and they will have more light in the evening all the year round.

As a matter of fact, \$50 a month, with board and room on a farm is far better than the average young man can do even at the high wages in the cities, where everything is paid out in necessary living expenses.

A rather irascible Irish politician had vented his spleen upon the German element which abounded in his community. Three or four Germans had been removed, through his persecutions, from the police force. Election coming apace one of his lieutenants suggested that he attend a German picnic—ostensibly pro American, but silently the other way—and make amends by his presence. He did so. Just about dinner time a few of his heelers nagged him to make a conciliatory speech. He mounted a picnic table and began:

MANY CITIES ARE IN SOVIET'S HANDS

CAVALRY IS USED IN ROME

(By United Press.)

Paris, July 9.—Reports received here from Italy today indicate a number of Italian cities were virtually in the hands of the Soviets, composed of radicals in some cases and conservatives in others.

It was stated that Genoa was under the control of the Soviets, composed of workman and demobilized soldiers who had ordered fifty percent reduction in all food and had seized shops which did not comply. A committee of five conservatives control Florence under similar conditions, it was announced.

Rome, July 9.—Cavalry were patrolling the streets today, dispersing groups of food rioters in front of stores. There were only a few cases of looting. A number of the stores, authorities announced, promised the forces to reopen them.

Under the new ordinance penalties ranging from \$500 to \$5,000 franks in fine and imprisonment from one to thirty months were recently imposed upon traders refusing to keep stores open.

Conditions at Naples had quieted some today. At Genoa traders were demanding a fifty percent reduction in prices of food. At Turin the

municipalities had requisitioned all goods. Order has been re-established in Florence.

FIRE HYDRANT BURSTS

A fire hydrant near the Park furniture factory burst yesterday when the cage in it broke and last night employees of the city water and light plant installed a new hydrant. The water was shut off from most parts of the city for about an hour last night, which accounted for the water being yellow this morning.

What the Franklin Doesn't Need

The kind of service an owner gets from his motor car is visualized by the contents of his garage. Anti-freeze mixtures, scale removers, leak fixers, apparatus of one kind or another, advertise the anxieties that are always with the driver of a water-cooled car—impediments to the full enjoyment of care-free motoring.

With the elimination of all water and delicate water-cooling parts, the air-cooled FRANKLIN CAR also eliminates the many water-cooling troubles. And the knowledge that the car is always ready to run without coddling and without a lot of detailed attention, gives a conception of satisfaction that is new to anyone but a Franklin owner.

WILL BE TRIED AT SHELBYVILLE

Continued from Page One

James McKay in Orange township, Rush county. The pen is seven hundred feet from the main road. When Mr. Tolen approached Mr. McKay at his home, the owner was not aware that his corn had been stolen and nearly refused to believe it until he had gone to the crib and made an inspection.

The police here consider the capture one of the best in the history of the department, as both Taylor and Miller are well known Rushville police characters. Taylor spent 917 days in the Penal Farm on two bootlegging charges and at this time is under a cash bond of \$1,000 in the Rush Circuit Court for bootlegging. He is also the man who committed assault and battery on the ex-chief of police of Rushville, in which he knocked that official unconscious took away his club and donning his helmet proceeded to become a policeman himself. Miller has served a term at the Penal Farm under the work or fight order when he refused to work for the support of his wife and family. Taylor had a quart bottle of whiskey on him when found.

In making his confession to the police and prosecutor today. Taylor implicates a Rushville business man stating that he sells more whiskey than when the saloons were in business in that town. He stated that this man sells three drinks of whiskey for a dollar and that he does not have to fear the consequences as long as a certain Rush county official is in power. Taylor also stated that when whiskey was selling at a low price in Ohio he bought a supply and left it in that state. Later he stated that he sold it to an Indianapolis man and made \$5,000 profit. The Essex touring car which he hauled the stolen corn and in which the pig was hauled is the property of Taylor and has been owned by him for three weeks.

The Vigor of Swift & Company Continues Only Because of Service

The only "control" over the packing industry is the "control" that gathers about the ability to do a necessary job in the best way.

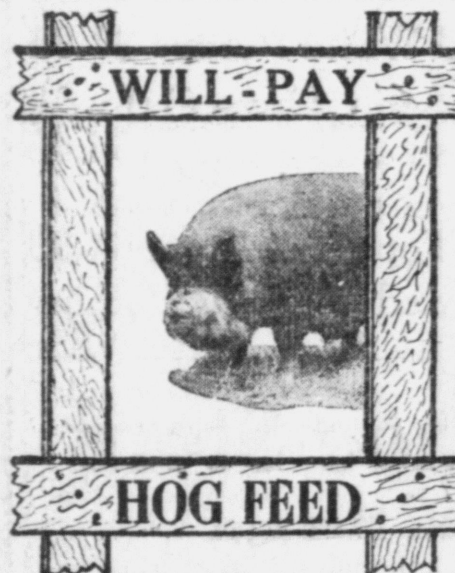

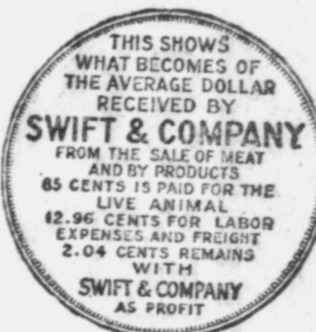

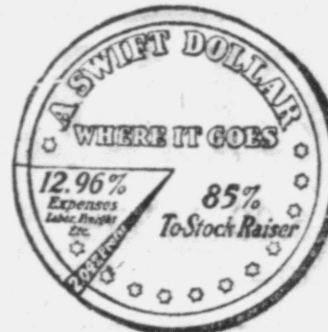

Swift & Company has reached a leading place in the industry because the size and character of the job of providing a nation's meat require the wide and thorough organization, the experience and devotion to duty, found in an institution like Swift & Company.

The moment Swift & Company ceases to perform its functions of usefulness with the greatest efficiency and satisfaction to the people, its position in the industry will vanish.

Swift & Company service is performed at a profit of a fraction of a cent per pound.

Can't Puncture Nor Blow Out

DAYTON AIRLESS TIRES in the past 7 years have been used by thousands of owners of light passenger and delivery cars in all parts of the civilized world, and have conclusively demonstrated:

W. C. AUSTIN--Milroy

1st—They can't puncture nor blow out.
2nd—They ride as smoothly as puccinotill.
3rd—They give much longer wear than the average pneumatic.
4th—They absolutely will not injure the car.
They have been endorsed by 100,000 owners of automobiles, including the late General W. W. Woodhouse and Edward Grey, formerly Chief Engineer of the Ford Motor Company.
Piers of live, elastic rubber built about one inch apart inside the casing and vulcanized or welded to it take the place of an inner tube. Nothing can happen but wear.
They are made only in 30 x 3 and 30 x 3 1/2 sizes but can be used on cars using 31 x 4. Write or phone about them as I am the exclusive dealer in Rush County.

their absence will not affect any action on any test vote on the treaty or league covenant.

Administrative senators hoped to arrange conferences today at the white house with President Wilson to report to him before delivering his speech, the exact conditions as it appears to them.

Democratic leaders' eagerness to acquaint the executive at once with their views was stated to be due to a desire of their party to see him take a fledged hammer to his opponents in his opening speech tomorrow.

League opponents seem to await Thursday's speech for a clue to the president's plans of campaigning. They are fully planning to meet any plans he might affix for his struggle.

TWO SEEKING APPOINTMENT

J. P. Stech and Loren Martin Would be Clerk of The Court

At least two active candidates are after the appointment as clerk of the circuit court, which office will be vacant August 1 because of the resignation of George B. Moore, Jr., which has been accepted by the county commissioners. J. P. Stech, justice of the peace, who served a term as city treasurer, is an active candidate for the place, with Loren Martin, a young farmer living a short distance southwest of Rushville. Many other names have been mentioned in connection with the place, but these are the only two, it is understood, who have formally notified the commissioners that they want the place.

RIFLEMEN SHOOT NOW AT TARGETS, NOT MEN

After Four Years Boche-Shooting,
National Rifle Association Competition Reopened Today.

INTERNATIONAL QUALITY

(By United Press.)
Bisley Camp, Eng., July 9—After four years Boche-shooting, Britain's crack riflemen resumed their annual warfare against mechanical targets to-day, when the National Rifle association's competition re-opened here. The famous Bisley meeting is international in character and normally attracts the world's best rifle and revolver shots, although most of the events are monopolized by army teams.

This year demobilization progress considerably affected the entries many eligible riflemen being frankly "fed up" with shooting, and finding target practice unexciting after the real thing. Nevertheless most of the British and Colonial champions were present when the qualifying rounds were shot off. Australian, Canadian, New Zealand, South African, competed with the pick of the Mother country there being keen rivalry for the Elcho Shield, for teams, and the King's Prize, for individual riflemen.

Amusements

Elsie Ferguson Here Tonight

Why do wives apparently without reason to the outside world, suddenly leave their husbands and seek the divorce courts? There are many reasons doubtless of which the general public is unaware, but a novel one is introduced in "Don't Change Your Husband," the new Cecil B. DeMille Artercraft photoplay which will be displayed at the Princess Thursday and Friday. It is a novel picture in every respect and wonderfully presented. Gloria Swanson, one of the loveliest women of the screen, has the leading feminine role and Elliott Dexter shares with Lewis Cody the honors of the male characterizations.

Jeanie Macpherson is the author. It is an original story presenting the woman's viewpoint on a question rather pertinently put in "Old Wives for New," by David Graham Phillips, which Mr. DeMille recently produced. But this is not a sequel to that story. On the contrary, it is an entirely new and original photoplay with a wealth of novel quality and a beauty that is indescribable. It is one of the real high art pictures of the year. Its entertaining features are so pronounced that it stands quite alone, in this and in many other respects.

Elsie Ferguson will be here tonight in "The Avalanche," a story of the lure of gambling which almost conquers a woman's soul. Pathe News will also be shown tonight.

Estimated Sum Includes Furniture,

CONTRACT PRICE \$86,208

Building Will be Erected by Leslie
Colvin of West Lafayette
For \$74,296

The county commissioners awarded the general constructing contract for the new Rush county infirmary, late yesterday afternoon to Leslie Colvin of West Lafayette, for the amount of \$74,296. The plumbing and heating contracts were awarded to Neal and Stoll of Connersville, their bid for heating being, \$5,035 and plumbing \$5500. The Hatfield Electric company of Indianapolis were the successful bidders for the wiring, getting the contract for \$1377.

The county council yesterday increased the appropriation of \$85,000, made a few months ago to construct the infirmary, by \$10,520, bringing the total up to \$95,520.

The commissioners ordered bonds issued in this sum to pay for the improvement. The bonds, will be \$597 each and will run for twenty years. They will be exempt from taxation and will bear five percent interest. Eight will fall due each year, four each six months, until they are all redeemed.

It is estimated that by the time the new building is erected, furniture purchased, cement walks, sewer and water connections made, that the cost will be around \$125,000 for the new county home.

The plans and specifications under which the contract was awarded call for a hip, tile roof, two-story building. The bid of M. M. Winship of this city was the lowest but it was for a flat roof.

The various bids received were as follows: general constructing, M. M. Winship, \$73,053; State Construction Company, \$78,887; Leslie Colvin, \$74,296. The heating and plumbing bids were as follows: Hutzel and company, heating, \$5694, plumbing, \$6402; Beale Brothers, heating \$5900, plumbing, \$6545; Neal and Stoll, heating \$5035, plumbing \$5500. The electric wiring bids were Sandborn Electric company, \$1450 and Hatfield Electric company at \$1377.

The building will be constructed in the form of a cross and the outside measurements will be 130 by 135

FALLS FROM A HAY WAGON ON HIS HEAD

Charles Boys Painfully Hurt When
Trip Rope on Hay Fork Breaks
on John Gartin Farm

UNCONSCIOUS FOR SOME TIME

Charles Boys, 337 West Seventh street, sustained very painful injuries late yesterday afternoon, when he fell from the top of a hay wagon, and alighted on his forehead. Mr. Boys was on the John Gartin farm, north of the city, and was helping saw the hay, when the trip rope on the hay fork gave way, causing him to fall.

The strain caused from the injury to his forehead, caused much pain in his neck, and for a time it was thought that his neck was broken, but Dr. Dean, the attending physician, stated that he was getting along very well, and that no bones were broken. He was unconscious for a time following the accident, but suffered much pain last night.

PLANS MADE FOR SIGNING

Ebert Will Rush Treaty to Clemenceau When it is Ratified

(By United Press.)

Berlin, July 9.—The moment the national assembly ratifies the peace treaty, President Ebert will sign the original document and rush it by courier to Versailles, it was learned today. At the same time he will inform Premier Clemenceau of his action by telegraph.

A German paper today advised the government not to hasten the signing of the peace treaty because it was uncertain whether America and Italy would ratify it.

MAY BE CARS THAT WERE STOLEN HERE

Two Fords Being Driven by Jeffery
Brothers of This City Held at
Watertown, Tenn.

SEWARD RECEIVES TELEGRAM.

John Gartin's Car Stolen June 8
and Hubert Jones' June 21—
Engine Numbers Sent.

Two Ford touring cars are being held at Watertown, Tenn., according to a telegram received here from the sheriff of that place, Luke McMinneway, which also stated that he was holding two Rushville boys, giving their names as Jeffery brothers. The telegram to Chief Seward wanted to know if there was two Fords missing from here, and it is probable that the cars belong to Hubert Jones and John Gartin, of this city.

The Gartin automobile was stolen from in front of the Main Street Christian church a month ago, or on Sunday night, June 8. It was a new car and was still running on the dealers license; even the tools had not been unpacked from the rear seat. At the time Mr. Gartin offered a reward of \$50, and nothing resulted.

The Jones machine was taken on Saturday afternoon, June 21 from in front of the jail. He parked his machine there about three in the afternoon, and at six, when he went to get it, found it was gone.

No one was suspected of taking the machines and the message from Tennessee came as a surprise. While they are not definitely known to be these two machines, it is regarded as probable that they are. Chief Seward wired the sheriff, giving him the engine numbers, and a reply was expected sometime today.

The boys held are the sons of George Jeffery, living at 1105 West Market, and one son Elmer, ended the police about a year ago, after being arrested on a charge for bootlegging.

CAMPAIGN TO OPEN IN ABOUT 2 WEEKS YOUNG SKY PILOT WILL SPEAK HERE

President Wilson's Tour For League
of Nations Will Take Him to
Pacific Coast

COMMITTEE MAY CALL HIM

Senators of Both Parties Ordered to
be in Washington Thursday
When Wilson Speaks

(By United Press.)

Washington, July 9.—President Wilson will start his tour of the United States campaigning for the league of nations in about two weeks, it was announced at the white house today. The trip will include a visit to the Pacific coast where he expects to view the newly formed Pacific fleet, according to present plans.

The president will keep himself continuously in touch with any senate committee which may wish to confer with him and is ready at all times to furnish any information that may be demanded, it was learned.

Opponents of the league of nations have hinted that they might have him appear before the foreign relations committee to explain the peace treaty and to be questioned.

The president arose early this morning and at once made preparations for a busy day's work. He was to confer with Secretary Tamm and with several senators. It was learned that he was preparing to keep in close touch with the foreign relations committee.

The Mexican situation, it is believed, will be one of the first problems called to Wilson's attention. A report will be made by the state department on the recent events in Mexico and on the status of legislation on the country.

The two weeks before starting the nation wide tour will be very busy for the president, it was indicated, as a mass of domestic work is awaiting his attention.

This fortnight will also give him a chance to see what drastic measures the league of nations opponents in the senate will take and give him an opportunity to compose speeches to offset their efforts.

Every member of both parties in the senate today received a telegraphic order from party leaders, to be here Thursday.

With the few senators remaining here, those absent, are arranging so

Thomas Roberts, Negro Patient in
Indianapolis Insane Hospital,
Runs Amuck With Iron Bar

MRS. KELLEY REPORTED DYING

(By United Press.)

Indianapolis, Ind., July 9.—Thomas Roberts, a negro patient at the Central Indiana Hospital for the Insane, picked up an iron bar in the laundry of that institution, today, and fatally injured Fred Pfister, 56, an attendant, and Mrs. Kelley, 76, landress, both white. Both skulls were broken.

Pfister lived one-half hour and Mrs. Kelley was reported in a dying condition shortly before noon.

The iron bar with which Roberts delivered the blows was said to have been carelessly left in the laundry by a plumber.

Roberts had been an inmate of the institution since November 20, 1913.

The woman, Mary Kelley is forewoman of the laundry at the hospital.

Howard C. Knotts, Next to Youngest
American Ace, will be at
Chautauqua.

ON FRIDAY AUGUST 15

Program About Completed for Assembly
Which Will be Held Second
Week in August.

Howard C. Knotts, next to the youngest American ace, who brought down ten German planes during the war and was a prisoner when the armistice was signed, will speak at the Rush county chautauqua Friday afternoon Aug. 15, at three o'clock according to the program for the annual assembly, which has been practically completed.

The chautauqua will be held a week later than usual this year, beginning on August 10 and continuing up and including August 17. Previously the assembly has always taken place the first full week in August.

Knotts is expected to be one of the most popular attractions on the program for his story is without parallel in the history of American's participation in the war.

Knotts is officially credited with only six planes, but he has the unique distinction no other ace has—that of having been in a German internment camp when hostilities ceased.

His flying chum throughout all their flying experiences, was a Pennsylvania boy, who is the youngest American ace, and he is just two months younger than Knotts. Knotts won oratorical honors during his high school experience. He was in Harvard Law school when he enlisted in the army. His first year in the law school he was elected president of the debating society and tied for honors at debating. A clever speaker with a tremendous war experience, he will give one of the most interesting lectures to be heard at the chautauqua.

When American unsheathed her sword in April, 1917, and in effect declared that Germany was the arch-enemy of all Christian civilization and therefore must be subdued at whatever cost and hazard, Lieut. Howard C. Knotts was a slim, fairhaired, blue eyed, first year law student at Harvard, just turned twenty-one. He was typically American.

to County Total \$4,400

The actual subscriptions to the Victory Liberty loan in Rush county amounted to \$840,950, an over-subscription of two percent on a quota of \$825,000, according to a detailed statement regarding the campaign received by Earl H. Payne county chairman, from the seventh federal reserve district chairman at Chicago.

The following statistics show how well Rush county responded to the last popular appeal for funds to pay war expenses:

The per capita sale based on the population of the 1910 census, 19,349, amounted to \$43.46, a per capita over-subscription of 82 cents, the per capita quota being \$42.64.

Six per cent of the population figured on the 1910 census, subscribed to the loan.

The average size of subscriptions was \$690.

The total number of subscriptions was 1,219, counting fifty-seven apportioned to Rush county by the Standard Oil company and the four railroads entering Rushville.

Exclusive of the subscriptions apportioned to Rushville by these concerns, the amount was \$836,550 and the number of subscribers was 1,102.

Rush county received credit for \$4,400 from the five corporations mentioned, as follows: Big Four railroad, four subscriptions, four subscriptions amounting to \$250; the C. I. & W. railroad, fifteen subscriptions amounting to \$350; the I. E. & W. railroad, eight subscriptions amounting to \$600; the Pennsylvania railroad, twenty-nine subscriptions amounting to \$2,000; the Standard Oil company, one subscription for \$700.

None of these bonds was purchased through any of the Rush county banks and for this reason it was necessary to have the federal reserve bank statement before the exact amount of sales could be determined.

The sales and number of subscribers by banks were as follows:

CORN STOLEN FROM J. M'KAY

Police Learn That Taylor Has Been
Selling Corn Which Was Probably
Stolen, Locally

Chester Taylor and Sylvia Miller, of this city, who were arrested yesterday morning in Shelbyville, when they appeared at the Richard and Lawson elevator of that place, to sell 1150 pounds of corn, will be tried in the Shelby circuit court, according to Prosecutor Stevens, who held a communication with the Shelby county prosecutor this morning.

The two men, when arrested, had in their possession a quart of whiskey, and will also stand trial for having an illegal quantity of liquor in their possession. The corn was found to belong to James McKay, a farmer living in Orange township, but the hog which they sold at Shelbyville several days ago has not been claimed.

Evidence was secured here yesterday by the police to show that Taylor had been selling corn to different Rush county men, and only last week, sold several sacks to a Glenwood man and also to a Rushville man.

The Shelbyville Democrat, commenting on the case said the following in last night's issue:

"When the two men drove up to the elevator this morning, they were recognized by Harold Walton, an employe there, as two of the four men, who two weeks ago stopped the same Essex touring car at the elevator and offered a pig for sale there: it is thought this pig was stolen, although Taylor denies that he was with the four men. Mr. Walton readily bought the corn, which was sacked and in the tonneau of the touring car. He told them, however, that he could not pay them until the arrival of the proprietor and asked them to come back later for the money. This they agreed to do. The police were notified and Officers Thompson and Fiscus were in waiting when the men returned and they were arrested.

As soon as the affidavits had been filed against the men, Prosecutor Tolen, Mayor Hoop and John Thompson made ready to go on a search for the owner of the corn. Taylor agreed to direct them to the place. The empty crib was found one-half mile south of the home of

FINED UNDER THE LAZY HUSBAND ACT

Nelson Harper Promptly Goes to
Work in Order to Escape Being
Sent to Penal Farm

HIS SENTENCE SUSPENDED

Nelson Harper was arraigned this morning before Mayor Irvin, charges being preferred under the lazy husband act. Harper, it was stated, has been living at the home of his father-in-law, William Hoard, and has been failing in his support of his family.

Mayor Irvin fined him a dollar and costs, and sentenced him to 60 days at the penal farm. The sentence was suspended providing he went to work and stayed at it, and his fine is to be paid with the money which he earns.

Harper had little trouble in finding work, and was busy with the street construction gang, shortly after being released.

them from starvation. An American mess was soon started. The five did their own marketing and prepared their meals.

They were allowed a remarkable amount of freedom in Moscow, and could go about the city in daytime. At special times they had to report for lectures on bolshevism and the world revolution given by Russians who had lived abroad and spoke English.

The bolsheviks did their best to convert the Yankees, who kept their peace, and expressed no opinions until they had crossed the border into Finland. The doughboys were supposed to be "ripe" for bolshevism when they left Russia.

To learn what impression Russian bolsheviks had made upon the doughboys, the United Press correspondent asked them for their opinions, when they arrived at the internment camp in Terijoki, where the Finns quarantine arrivals from Russia.

Sergeant Leitzel said: "They're not making any bolsheviks of American prisoners. They try to preach bolshevism to us, but it doesn't go. They'd take men who've got brains who've accomplished something by ability and work and reduce them to the lowest level. Who's going to stand for that?"

"They're a bunch of thieves and robbers. The leaders are preaching that everyone ought to have the same amount of money, but every leader has a pile of rubles stuck away that would knock your eye out. They all believe in the principle the Bolos had at the front. What's yours is mine—that's their creed."

"Bolos" is the name the Yankee on the Archangel front gave to the bolsheviks. Leitzell is an intelligent spirited, redheaded American who came by his decisive ideas regarding bolshevism as the result of his first hand experiences.

Private Hogan is serious and deliberate. He speaks little and listens much. His views are equally interesting. "If America ever went bolshevik like Moscow," he said, "I'd make myself a lone hand to stand out against them. If you want to be a good bolshevik, you've got to be rummy and dirty. The majority of people in Russia wouldn't tolerate it, if it weren't for the fact they would starve to death if they opposed the Bolos."

Private Triplett, a rather easy going youth said, "I think the Bolos are just too damn lazy to work. If it weren't for the women they'd never get anything done. They have to dig the trenches at the front."

"You see the women carrying huge loads while some big bum of a bolshevik walks alongside carrying nothing. With the women doing everything, the men have to enlist, or the Bolos won't let them eat."

Private Laurson said, "I figure they're crooked and deceitful and are a bunch of cut-throats. All the honest ones want to get out of Russia as soon as possible. They all want to go to America. Like hell we'll let them in—if I see any I'm Bolos won't let them eat."

This is what the ordinary American doughboy thinks of bolshevism. These chaps had three months to

DOUGHBOYS GIVEN BOLSHEVIK TALKS

Bolsheviks Aimed to Convert Americans and Send Them Home Primed For Agitation

WERE STRIPPED OF CLOTHING

Five American Prisoners Were Released in Moscow and Allowed to Leave at Request of U. P.

By FRANK J. TAYLOR
(U. P. Staff Correspondent.)

New York, July 9.—American doughboys who fell into the hands of the bolsheviks as war prisoners were given an unwelcome course of lectures on bolshevism while in Moscow. The bolsheviks aimed to convert the Americans and send them home primed for agitation in America.

The plan failed, judging from the sentiments of five Americans who were released in Moscow and allowed to leave at the request of the United Press.

These men were, Bryant R. Ryall, Y. M. C. A. Secretary, 345 Madison Avenue, New York City, who had been in Russia before doing civilian relief work; Sergeant Glenn W. Leitzell, Mifflingburg, Pennsylvania, Privates Freeman Hogan, 812 Caspar Avenue, Detroit, Jens Laurson, Marlett, Michigan, and John Triplett of Hindman, Kentucky. In addition the party brought out Francis Linford, a wounded English lad from Sussex.

All the "Yanks" were captured on the Archangel front. When the bolsheviks surprised them by a flank movement, the "Yanks" were passed back from post to post until they arrived in Moscow. They were stripped of practically everything, including clothes.

Some of them had almost entirely Russian uniforms. The bolsheviks had a particularly keen eye for American "O. D." equipment, especially shirts. All of the Americans had bolshevik overcoats, their own having been stolen.

In Moscow the Americans were given fairly clean and decent quarters, but were issued practically no food. A Red Cross fund, and later money from the Y. M. C. A., saved

We know the History of the Waist you wear

The waist you wear may be a modest garment of cotton — or again a camisole of cobwebby silk.

But be your waist a commoner or an aristocrat, we can give you its pedigree—can tell you the materials of which it is made, whence they came and the manner in which they are spun, woven and tailored to make the garment you wear.

We are able to do this because

we make a special study of textiles and fabrics. We are enabled thus to give every variety of garment that comes to us exactly the treatment that will cleanse it best. Is this not an improvement upon the methods of the old-time cleaners?

You may visit us and watch our workers while they sort the articles, so that each can be given the special cleansing it needs most.

Saving Daylight

There is weeping and gnashing of teeth in the large cities at the repeal of the daylight saving law. But they are not narrow minded about it. They admit that the law has been working a hardship to farmers, and that there is plenty of argument in favor of its repeal. If the farmer sets his clock in contradiction to railroad time, his schedule will get considerably twisted when he is shipping cream and produce to the city consumer.

But the whole trouble is so easily cured that it is difficult to understand why it ever became a vexed question. It is simply a matter of phraseology. We can call any time bedtime, if we want to go to bed.

City folks can have what they want without hurting the farmers, if they prefer to start work on hour closer to sunrise. Make employers get together and arrange that offices shall open and close an hour earlier. Places that open at 8:30 and close at 5:30 can open and 7:30 and close at 4:30. They will not work any harder, and they will have more light in the evening all the year round.

More Work Than Workers.

As a matter of fact, \$50 a month, with board and room on a farm is far better than the average young man can do even at the high wages in the cities, where everything is paid out in necessary living expenses.

A rather irascible Irish politician had vented his spleen upon the German element which abounded in his community. Three or four Germans had been removed, through his persecutions, from the police force. Election coming apace one of his lieutenants suggested that he attend a German picnic—ostensibly pro American, but silently the other way—and make amends by his presence. He did so. Just about dinner time a few of his heelers nagged him to make a conciliatory speech. He mounted a picnic table and began:

"Oi always loike to see payple happy at a pignick. 'Tis thin all hearts bate with frinship. Seein' Irish ond Dutch together recalls to me moind the yarn of the Irishman spindin' th' day with a Dootchman, on the Dootchman's farm. The Irishman sees a skunk run into the chicken coop and he hollers: 'Dootchies, the skunk will ate all the birds. Oi'll chase him out!' With that the Irishman rushes into the coop but soon scrambled out again for breath an' holdin' his nose. 'Oi can't stand the odor av the skunk,' says he. The Dootchman says: 'You are knowin' how the Dootchman rushes into the coop. That's how I feel!' The Dootchman says: 'The skunk run out!'"

CAVALRY IS USED IN ROME

(By United Press.)

Paris, July 9.—Reports received here from Italy today indicate a number of Italian cities were virtually in the hands of the Soviets, composed of radicals in some cases and conservatives in others.

It was stated that Genoa was under the control of the Soviets, composed of workman and demobilized soldiers who had ordered fifty percent reduction in all food and had seized shops which did not comply. A committee of five conservatives control Florence under similar conditions, it was announced.

Rome, July 9.—Cavalry were patrolling the streets today, dispersing groups of food rioters in front of stores. There were only a few cases of looting. A number of the stores, authorities announced, promised the forces to reopen them.

Under the new ordinance penalties ranging from \$500 to \$5,000 franks in fine and imprisonment from one to thirty months were recently imposed upon traders refusing to keep stores open.

Conditions at Naples had quieted some today. At Genoa traders were demanding a fifty percent reduction in prices of food. At Turin the

municipalities had requisitioned all goods. Order has been reestablished in Florence.

WILL BE TRIED AT SHELBYVILLE

Continued from Page One
James McKay in Orange township, Rush county. The pen is seven hundred feet from the main road. When Mr. Tolen approached Mr. McKay at his home, the owner was not aware that his corn had been stolen and nearly refused to believe it until he had gone to the crib and made an inspection.

The police here consider the capture one of the best in the history of the department, as both Taylor and Miller are well known Rushville police characters. Taylor spent 917 days in the Penal Farm on two bootlegging charges and at this time is under a cash bond of \$1,000 in the Rush Circuit Court for bootlegging. He is also the man who committed assault and battery on the ex-chief of police of Rushville, in which he knocked that official unconscious took away his club and donning his helmet proceeded to become a policeman himself. Miller has served a term at the Penal Farm under the work or fight order when he refused to work for the support of his wife and family. Taylor had a quart bottle of whiskey on him when found.

In making his confession to the police and prosecutor today, Taylor implicates a Rushville business man stating that he sells more whiskey than when the saloons were in business in that town. He stated that this man sells three drinks of whiskey for a dollar and that he does not have to fear the consequences as long as a certain Rush county official is in power. Taylor also stated that when whiskey was selling at a low price in Ohio he bought a supply and left it in that state. Later he stated that he sold it to an Indianapolis man and made \$5,000 profit. The Essex touring car which he hauled the stolen corn and in which the pig was hauled is the property of Taylor and has been owned by him for three weeks.

The Vigor of Swift & Company Continues Only Because of Service

The only "control" over the packing industry is the "control" that gathers about the ability to do a necessary job in the best way.

Swift & Company has reached a leading place in the industry because the size and character of the job of providing a nation's meat require the wide and thorough organization, the experience and devotion to duty, found in an institution like Swift & Company.

The moment Swift & Company ceases to perform its functions of usefulness with the greatest efficiency and satisfaction to the people, its position in the industry will vanish.

Swift & Company service is performed at a profit of a fraction of a cent per pound.

Let us send you a Swift "Dollar". It will interest you. Address Swift & Company, Union Stock Yards, Chicago, Ill.

CAMPAIGN TO OPEN IN ABOUT TWO WEEKS

Continued from Page One
their absence will not affect any action on any test vote on the treaty or league covenant.

Administrative senators hoped to arrange conferences, today at the white house with President Wilson to report to him before delivering his speech, the exact conditions as it appears to them.

Democratic leaders' eagerness to acquaint the executive at once with their views was stated to be due to a desire of their party to see him take a fledge hammer to his opponents in his opening speech to congress.

League opponents seem to await Thursday's speech for a clue to the president's plans of campaigning. They are fully planning to meet any plans he might announce for his struggle.

TWO SEEKING APPOINTMENT

J. P. Stech and Loren Martin Would be Clerk of The Court

At least two active candidates are after the appointment as clerk of the circuit court, which office will be vacant August 1 because of the resignation of George B. Moore, Jr., which has been accepted by the county commissioners. J. P. Stech, justice of the peace, who served a term as city treasurer, is an active candidate for the place, with Loren Martin, a young farmer living a short distance southwest of Rushville. Many other names have been mentioned in connection with the place, but these are the only two, it is understood, who have formally notified the commissioners that they want the place.

RIFLEMEN SHOOT NOW AT TARGETS, NOT MEN

After Four Years Boche-Shooting,
National Rifle Association Com-
petition Reopened Today.

INTERNATIONAL QUALITY

(By United Press.)
Bisley Camp, Eng., July 9.—After four years Boche-shooting, Britain's crack riflemen resumed their annual warfare against mechanical targets to-day, when the National Rifle association's competition re-opened here. The famous Bisley meeting is international in character and normally attracts the world's best rifle and revolver shots, although most of the events are monopolized by army teams.

This year demobilization progress considerably affected the entries many eligible riflemen being frankly "fed up" with shooting, and finding target practice unexciting after the real thing. Nevertheless most of the British and Colonial champions were present when the qualifying rounds were shot off. Australian, Canadian, New Zealand, South African, competed with the pick of the Mother country there being keen rivalry for the Elcho Shield, for teams, and the King's Prize, for individual riflemen.

Elsie Ferguson Here Tonight

Why do wives apparently without reason to the outside world, suddenly leave their husbands and seek the divorce courts? There are many reasons doubtless of which the general public is unaware, but a novel one is introduced in "Don't Change Your Husband," the new Cecil B. DeMille Arterial photoplay which will be displayed at the Princess Thursday and Friday. It is a novel picture in every respect and wonderfully presented, Gloria Swanson, one of the loveliest women of the screen, has the leading feminine role and Elliott Dexter shares with Lewis Cody the honors of the male characterizations.

Jeanie Macpherson is the author! It is an original story presenting the woman's viewpoint on a question rather pertinently put in "Old Wives for New," by David Graham Phillips, which Mr. DeMille recently produced. But this is not a sequel to that story. On the contrary, it is an entirely new and original photoplay with a wealth of novel quality and a beauty that is indescribable. It is one of the real high art pictures of the year. Its entertaining features are so pronounced that it stands quite alone, in this and in many other respects.

Elsie Ferguson will be here tonight in "The Avalanche," a story of the lure of gambling which almost conquers a woman's soul. The News will also be shown tonight.
